

Over the weekend North Beach residents were left with unsigned flyers on their doors. These flyers contained false and misleading statements regarding plans for the property recently acquired by the town at the corner of 3<sup>rd</sup> Street and Bay Avenue.

The FACTS are that the town has hired a landscape design firm and has appointed a Parks Committee of North Beach citizens to advise the town council on future plans for the site.

Beyond the contract for the design, no funds have been expended on the site and requests for proposals have yet to be issued, so the town has NO firm figures on the development costs. At the next council meeting on Thursday, March 13, 2014, the council will vote on requesting proposals for pond and sidewalk construction. The suggestion that the council will be voting on any expenditures for the park is a false statement.

The appearance of these flyers only serve to notify residents that the political campaign season has begun in North Beach.
